Re: Please join us for a Virtual Portage Solar Project Public Information Meeting

Dear Property Owner,

We hope this letter finds you and your family healthy and well. We are contacting you as an adjacent landowner or tenant to invite you to a Public Information Meeting for the proposed Portage Solar Project. The virtual public meeting will provide an opportunity for local community members and stakeholders near the project to learn about it and connect with representatives to ask questions. The health and safety of community members near our projects is very important to us, as is providing information regarding the proposed Portage Solar Project. For these reasons, we invite you and your neighbors to attend the online session or contact us directly with questions or for additional information (details below).

About the Project

The Project will be developed by National Grid Renewables and is proposed in the Towns of Grant and Plover in Portage County.

If approved by the Wisconsin Public Utilities Commission, construction could begin as early as late 2023. The Portage Solar Project will connect to the existing transmission connection located at the Plover Substation owned by American Transmission Company ("ATC").

The Project will play an important role in Wisconsin's vision to reduce carbon emissions by 2030 and into the future. National Grid Renewables has successfully developed renewable energy projects throughout North America, we look forward to presenting this Project to you and other community stakeholders.

Public Information Meeting Logistics

We are planning an approximately one-hour-long virtual session for the Portage Solar Project Public Information Meeting on February 23rd at 6:00 PM.

- ✓ The Public Information Meeting will be structured as a presentation about solar energy, the Portage Solar Project, and National Grid Renewables.
- ✓ Speakers include National Grid Renewables project representatives.
- ✓ Throughout the session, we will be answering submitted questions from attendees related to the project.
- ✓ Following the session, National Grid Renewables will post a compilation of the information session's Q&A, as well as a recording of the information session on the Project's webpage at <https://nationalgridrenewables.com/portage-solar/>

How to join the Public Information Meeting

Portage Solar is utilizing the Microsoft Teams platform to host this Public Information Meeting. Please visit the project webpage below to register for the event and get a link for the meeting: <https://nationalgridrenewables.com/portage-solar/>

Using Microsoft Teams

We encourage you to learn how to use Microsoft Teams by visiting this website:

<https://support.microsoft.com/en-us/office/attend-a-live-event-in-teams-a1c7b989-ebb1-4479-b750-c86c9bc98d84?ui=en-us&rs=en-us&ad=us>

Feel Free to Contact Us

We look forward to introducing the Portage Solar Project to you and your community. We have pre-supplied project information on the project website located at:

<https://nationalgridrenewables.com/portage-solar/>

Should you have any additional questions or wish to speak to a member of our staff, please contact us at portagesolar@nationalgridrenewables.com or at 715-201-3620 or contact us at the email or contact number listed below. You can also mail us at the address listed at the bottom of the page.

Sincerely,
